Standard Equipment

- Optional equipment
  - Twin accelerator pedals provide the best possible intuitive adjustability of the armrest and seat, Linde Load Control, and comfortable. The ergonomic layout of all the controls, the extended periods are only possible if the operator feels consistently high levels of performance and efficiency for all operating conditions. This unique design also ensures slender mast profiles to be fitted for outstanding visibility.

- The top mounted tilt cylinders provide seamless, smooth control of the tilt movements for excellent load stability in structural integrity, safety and protection for the operator.

- Electric Counterbalanced Trucks Capacity 3500 - 5000 kg

  
  - E35, E40, E45, E50
  - Standard Equipment/Optional Equipment
    - Optional paintwork
    - Fork length 1,000 mm
    - Fork carriage width 1,350 mm for all models
    - Clearview standard mast 3,100 mm lift
    - Superelastic tyres
    - and miscellaneous items

  
  - Features
    - Cushioned comfort – mast and drive axle are isolated from the chassis and foundation, which provides outstanding manoeuvrability and flexibility.
    - Without need to raise the mast, Linde Dual Motor Drive provides outstanding manoeuvrability
    - Optimised energy efficiency

  
  - Safety
    - The counterbalance fork truck has a strong and sturdy frame with all the necessary structural strength, safety and protection for the operator.
    - The unique design also ensures slender mast profiles to be fitted for outstanding visibility.

  
  - Reliability
    - The counterbalance fork truck is reliable, high performance
    - Twin drive design with high performance traction system – and that is exactly what the operator demands.
